

AWNINGS

RESIDENTIAL AND COMMERCIAL

Folding arm awnings are perfect for overhead sun protection, minimising harmful UV rays and maximising heat reduction.

FETUNA

The Fetuna Cassette awning is architecturally inspired to allow a streamlined look when retracted. Designed in France and custom manufactured in New Zealand to withstand the harshest of environments.

HORIZON

An elegant monoblock awning engineered using European technology and styling with high quality aluminium and stainless steel components. Horizon folding arm awnings have an attractive warranty and are built tough.

GENERAL GUIDELINES

Retractable awnings should be used under supervision only as weather conditions can change quickly. They need to be retracted in periods of high winds. Do not roll your awning away when the fabric is wet and do not attempt to adjust or remove any awning components, trying to do so may result in personal injury or product malfunction. Your Making Shade awning has been manufactured to provide you with years of hassle-free weather protection with very little maintenance.

AWNING MAINTENANCE

Our Awning components are powder coated using Dulux powder coat systems. As a general rule cleaning should take place every six months. In areas where pollutants are more prevalent, such as beach front and industrial or geothermal areas, then a cleaning program should be carried out more frequently ie; one to three months.

We recommend cleaning your fabric with a soft bristled brush and rinsing with water. For localised stains, clean with a neutral detergent mixed in lukewarm water and rinse.

Always ensure the fabric is dry completely before rolling it.

WARRANTY

Your awning comes with a five-year limited warranty on all hardware components of the system. The warranty will be void if the fabrication and/or installation has not been completed according to the manufacturer's specifications or the following:

- Maintenance plan is not followed
- Damage caused by extreme weather events
- Water ingress to the motor (caused by insufficient flashing)
- Vandalism
- Incorrect operation or cleaning
